24 March 2023

Black Sea Trade and Development Bank

Sovereign and Public Sector

BBB+

Credit strengths

- High capitalisation
- Preferred creditor status and diversified loan portfolio
- Prudent liquidity management

Rating rationale and Outlook:

The Black Sea Trade and Development Bank's (BSTDB) BBB+ rating is driven by its 'strong' intrinsic strength. In detail:

Credit challenges

High risk of mandated activities in

challenging operating environment

High Russia and Ukraine exposure

- Institutional profile: The BSTDB benefits from strong governance and high importance for its shareholder governments. This is supported by its dual mandate in the Black Sea region and the capital increase approved on 8 March 2023.
- Financial profile: The BSTDB's financial profile benefits from very high capitalisation levels and a well diversified loan book while its liquidity and funding profiles remain adequate, even though its cost of market funding has increased significantly. Challenges include a very difficult operating environment, and its elevated exposures to Russia and Ukraine which constitute about 30% of its loans.
- Shareholder support: The BSTDB's rating does not benefit from an uplift from Scope's assessment of the bank's shareholder support as measured via the key shareholders' sovereign credit ratings, with a weighted average rating of B+.
- Outlook and triggers: The Stable Outlook reflects our view that the bank's high capitalisation, reinforced via the approved capital increase, its preferred creditor status, and prudent liquidity management mitigate the remaining uncertainty surrounding the final impact of the Russia-Ukraine war on the bank's balance sheet.

The ratings/Outlooks could be downgraded if: i) asset quality deteriorated; ii) the bank's preferred creditor status were to be questioned or even repealed due to events prompted by the crisis; iii) liquidity buffers declined; iv) the bank's implementation of its strategy diverged significantly from self-imposed targets; and/or v) shareholders' commitment towards the bank deteriorated. Conversely, the ratings/Outlooks could be upgraded if: i) asset quality improved; and/or ii) liquidity buffers increased permanently.

Scope's assessment of the BSTDB's rating drivers

- Lower shareholder commitment
- Inability to implement strategy/targets

Ratings and Outlook

Foreign currency

Long-term issuer rating	BBB+/Stable
Senior unsecured debt	BBB+/Stable
Short-term issuer rating	S-2/Stable

IV Asset quality assessment

Portfolio quality ((initial assessment)	Very Strong	Strong		Ade	quate	N	Moderate			eak		
Indicative bo	rrower quality*	aaa/aa	а		b	bb		bb		b/ccc			
Not	tches	+2	+1			0		-1		-2			
A	· · · · · · · · · ·	lu d'actor											
	stments	Indicator	. <u> </u>				nent/ Thre						
Points			+5	+4	+3	+2	+1	0	-1	-2	-3		
Credit Protection	Sovereign PCS Private sector secured	% of loan portfolio	100	≥ 80	≥ 60	≥ 40	≥ 20	< 20					
	Geography	HHI	-			≤ 1000	≤ 2000	> 2000					
Diversification	Sector	HHI					≤ 2000	> 2000					
	Top 10 exposures	% of loan portfolio				≤ 25	≤ 75	> 75					
Equity Exposure		% of equity						≤ 25	> 25	> 50	> 75		
		Total points					+5						
		Adjustments	+2 categories										
Portfolio quality (final assessment) Very Strong			Strong		Ade	quate	N	loderate		W	eak		
	tches	+2	+1			0		-1		-	2		

N.B. * Based on i) Scope's estimate of the geographical and sectoral distribution of the BSTDB's loan portfolio before any credit enhancements via collateral or guarantees, and ii) Scope's sovereign ratings. Three points usually correspond to one assessment category. In the case of the BSTDB, this implies up to two higher categories from the initial portfolio quality assessment based on the estimated average borrower quality. To account for heightened credit risks in Ukraine, Scope assigns an overall 'moderate' portfolio asset quality.
