Obligasjoner med fortrinnsrett - ISIN NO0013056184
Residential Mortgage Covered Bonds Performance
Report - 2025Q2

Summary

The AAA rating with a Stable Outlook assigned to the covered bond (NO0013056184) issued by DNB Boligkreditt AS are based on the bank's issuer rating (Conf / Conf), enhanced by two notches of governance-support based uplift.

Governance support factors, in total, provide an rating uplift of up to six notches and, effectively, a floor against a deterioration in cover pool credit quality. This reflects our assessment of the strong governance support provided by the legal covered bond and resolution framework in Norway.

We have classified the interplay between complexity and transparency with a cover pool complexity (CPC) category of 'High', allowing for a one-notch uplift on top of governance support factors, which translates into a maximum cover pool uplift of seven notches. Considering the regularly provided level of overcollateralisation, the cover pool could provide a five-notch buffer against an issuer rating downgrade.
